

## Circular Perspectives

*Circular Perspectives* infinity scarf/cowl showcases the new Mountain Color's Perspectives yarn kit that includes 5 gradient colors of Crazyfoot yarn.

To get maximum enjoyment from Mountain Colors Perspectives yarn, I've designed this pattern to use up almost every bit of all 5 mini-skein colors.

The stitch pattern is a simple, pleasingly reversible lace to knit in the round. You can wear your creation as a single casually looped long scarf, or double-looped as a snugly cowl.

**Size** 54" circumference by 8"
