## Hug-Me-Tight Fan Lace Jacket Wrap

The concept for this cover-up was based on a vintage garment style. However, this design is updated with a modern-day relaxed fit and easy-knitting circular construction.

This clever wrap begins simply as a large tube. The magic is in the unique way of binding off to create a semi-fitted short jacket with rounded hemline. The result is similar to a bolero, except with a more feminine look, a softer shape and short sleeves.

The design features a lovely fan-shaped lace and twisted stitch pattern, self-trimmed edging and a touch of beads to complete the understated look of this gracious garment.
